“Words cannot adequately describe my thanks and appreciation to you and the most amazing work you have introduced me to. The training is a journey of self-discovery with tools to master life's great mysteries.” R. Greenstein, Therapist

The SOL Spirit of Light Training has 4 modules that stretch over 8 months in order for everyone to learn and integrate the tools and be supported whilst shifts happen on all levels. The Training is experiential as opposed to theoretical and offers self-exploration, tools that can be used in one's own life as well as an opportunity for a new career path if that arises. The Spirit of Light Training is an opportunity to reclaim the true essence of self.

Benefits of the SOL Training:

Entity/Energetic clearing

Clearing your energetic field can lead to physical pain disappearing, relationships harmonizing and old patterns transforming. The mind gets clearer and there is an overall feeling of well being.

Past life integration

Working with past lives can help shift old unconscious patterns which leads to physical and psychological wellbeing. Karmic blockages can be resolved and old karma gets completed.

Channelling

The introduction to channelling opens one to the light within and outside. It helps to expand into ones full potential. Channelling is an extraordinary way to connect with one's own spirit and guides.

The training is held in a beautiful space surrounded by nature. Close to Byron Bay it offers an intimate setting of peace and tranquillity. The groups are held small in order to allow sufficient personal attention and space for personal learning and integration.
