

money money money

Deepening
Training
for SOL Spirit of Light
Graduates
by Ghata

MONEY • SPIRITUALITY • CONSCIOUSNESS

Let's use money as a gateway to spiritual growth as we explore and clear our personal relationship to money. We will identify energy we give to money, explore our beliefs, attitudes and possible traumas in these realms.

We want to create a balance between the spiritual realm and the manifested world and money as part of it all.

Let's use our struggle or resistance around money for transformation as we take full responsibility for all aspects of our creation around money. Lets untangle ourselves from conscious and unconscious conditioning and indoctrination.

Most importantly: let's play, enjoy each others company and learn from each other as we dive deeply into these very interesting realms.
