

# Letting More Light In

DEEPENING TRAINING FOR SOL SPIRIT OF LIGHT GRADUATES

by Ghata

Exploring an issue from different directions  
allows more light in and enables a shift from within

The upcoming SOL Deepening will be very exciting.

I invite you to come with one of your most persistent issues and work through it with many different SOL tools. This is to support you to finally shift or clear this pattern. You will get practical experience using the changed and updated basic SOL tools. Knowing these changes will support you if you want to use them professionally and to experience how to tackle something with a client from many different angles.

In 2019 Deepening we will work with the new way of doing band cutting, past life integration and include some techniques to deal with trauma. We also learn (for some of you revisit) an ancient clearing technique, adopted from the Buddhist lineage, which helps to resolve inner conflict, unhelpful patterns and issues. We explore beliefs that keep you in your old creation and use creative tools to let go of the old and create a new vision.

And of course, we will play, enjoy each other's company and learn from each other as we dive deeply into the realms of energy and healing.
