

SOL

SPIRIT OF LIGHT

TRAINING & PRACTITIONER TRAINING

with Ghata

2019 / 2020 TRAINING COMMENCES 29 AUGUST 2019

The SOL Spirit of Light Training offers students both a profound personal development experience and/or preparation for professional practice in Energy Healing, Clearing, Pastlife Integration. It is designed to offer exploration of different techniques for clearing of self to become an open channel for energy-healing and psychic work.

The different modules of the SOL Spirit of Light Training are designed to help students grow in consciousness and free their own potential for healing and love.

Students learn how to free themselves from limiting beliefs, patterns, fears and restrictions in all areas of their life. The intention in deeply investigating their current paradigm is to enable them to feel beyond their personal 'story' and to trust in their own innate wisdom and intuition. Students are encouraged to find their own unique way of helping themselves and others.

SOL Spirit of Light Training is delivered in 4 separate face-to-face four-day modules spread over 8 months. It is experiential as opposed to theoretical and offers self exploration tools that can be used in one's own life as well as offering a new career path or building on current skills.

THE BENEFITS

- Confidence in your intuition.
- An ability to work with people in a variety of energetic approaches.
- A deeper understanding of yourself and others.
- Personal healing and a greater sense of self.
- Insights in your limitations and how to change them.
- Greater clarity and trust in yourself and the energies around you.
- The direct experience of being a channel for light and healing and how to use it.
- The tools and techniques to become an energy worker/healer.
- Limited class size guarantees individual attention for each student.
- Two to four accredited SOL Spirit of Light assistants present in each class to support students.
- Hands on practice during and between modules.
- All necessary course materials, worksheets and CD's are provided.

"The Spirit of Light Training was the most transformative work I have ever done, yet at all times I felt safe and guided to find my own truth. The training allowed me to push through barriers I didn't know I had, and in doing so accelerated my path towards my personal goals and fulfilment. By experiencing the beliefs that I have held in my body and then learning how to release them is a very simple yet profoundly liberating experience makes the mind-body-spirit connection now seems a reality rather than a slogan." - Geoff, Sydney, Pharmacist & Naturopath

SOL SPIRIT OF LIGHT

The **freedom** to be who you truly are
and to **create the life you want.**

“Throughout the SOL journey, I have slowly been able to give myself the love and compassion needed to speak what is true for me, without the need to criticise or judge that truth. I’ve learnt to trust my voice. I’ve had the opportunity to confront, explore and change old, unhelpful beliefs and behavioural patterns within myself and my relationships. I’ve learnt to energetically hold people in a much more loving, supportive and safe way. I feel much more empowered and at ease as a practitioner.” - Ebony, Brisbane, Kinesiologist & Counsellor

BECOMING AN APPROVED PRACTITIONER

Students have the option to become Approved Practitioners. After successful completion of two SOL Spirit of Light Trainings and fulfilling all requirements, students receive a Practitioner Certificate which makes them eligible for IICT Insurance.

All students are able to use the tools professionally and personally after completion of one SOL Spirit of Light Training without fulfilling all the practitioner requirements.
