

THE LANGUAGE OF LIGHT

WORKSHOP with GHATA ENGELS

A very rare opportunity to work with Ghata - the first time that she has offered her workshop in the UK!

The Language of Light allows you to open the door of your intuition by learning how to access energy and light to use in your daily life. This is a unique opportunity to allow you to connect to the light within and the higher energetic realms. You will discover if there are any blockages, which may keep you from connecting to the highest light realms and learn how best to work with them. During the day, Ghata uses her psychic ability combined with energy work to tune into you individually and support you in opening up further to remove what may be in the way. There is space for guided meditations, healings and any personal questions, which may arise in the moment. Also, this workshop is an introduction to the Spirit of Light Training and Practitioner Training. Come along to bathe in love and light and open to your own potential.

Where: The Studio, Post Office House, Blackness, near Linlithgow, Scotland EH49 7NG

When: July 21, 10:00 - 18:00
