

The Language of Light

A Day for Women and Men offered by Ghata

This is an invitation to dive into the realms of energy and light for a day. It is an opportunity to connect to the light within, as well as the higher energetic realms.

We will find out if there are blockages which may be keeping you from connecting to the highest light realms, and work with them.

This day allows us to bathe in love and light and open to our own potential. Ghata will use energy work and her psychic ability to support you in opening up further. There will be space for meditation and personal questions.

Ghata will tune into you individually and with the help of her guidance, she will answer questions and help remove obstacles which arise in the moment.

[Ghata I. Engels](#)
[Energy worker, Counsellor and Life Coach](#)

Ghata Iris Engels is an internationally renowned energy worker and facilitator who has been leading personal development groups and trainings in Europe, New Zealand, Australia and the USA since 1992.

Ghata combines many techniques as well as her psychic abilities to support transformation and healing on many levels.

Her experience and kind guidance, as well as her compassion and love, create a space in which magic happens.

Ghata's own path of service, began many year ago in her homeland of Germany. While completing a law degree, she found something deep inside was also leading her towards a more spiritual path.

During a meditation in a sacred temple, Ghata was initiated and sent away to do her own psychic healing work. Since then, Ghata has helped many people around the world with all kinds of problems using her many different healing tools.

Ghata is very clear that the work is done through her, and that her role is to remain open for whatever gifts want to come through, and whatever healing can happen as a result.

Ghata's own life has changed dramatically through this work. She has experienced herself as more open, less judgmental, more radiant, successful and healthy. Ghata is dedicated to sharing her love, gratitude, humility, compassion and gifts with others, so they too can share in this light.
